Dear diary:

I HAVE A BIG DILEMA!!! I don't know what should I do. I have been selected to play the pin pon olympics games of Paris. I will travel to France next year.

After seeing the current situation of Germany I have been thinking about escaping to another country to live with more freedom.

I can't take in this situation anymore but the problem is that it is very difficult to escape without being trapped. So I must think about how to escape if I want to get better opportunities.

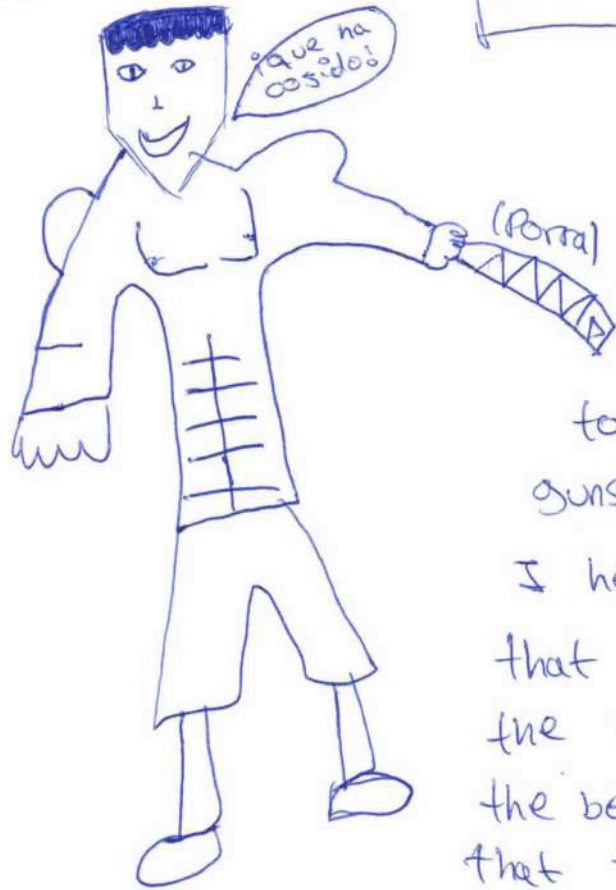

My principal option is to win the competition and then with that money I would buy a house.

MY DIARY

Daniele

I'm Daniele, the Berlin wall

Security Guard and I work for the Government. I have been working 10 years in this job because I like to watch other people and I love the guns. Today I have a dilem, yesterday I heard a boy that is a football fan that he wants to escape at night over the wall to see the debut of Agirreoa the best promise of football. I don't know that this country is very good and so I don't know let them pass. I going to let them pass because I would also like to go to ~~the~~ see the debut of Agirreoa.

I am studying politics and in my opinion, the government should let us be more free. I am writing this letter to express my opinion about the situation of the weast side of the wall.

First of all, I think that they control us too much, we can't whatever we want and be free.

On the other ~~part~~ hand, it's true that we have more oportunities to study, have free education and health. However, we can't communicate with our family and friends ~~in~~ in weast Berlin, so I have to say that this political party is too strict.

To Finnish, in east part, there are better salaries, freedom and more products.

In conclusion, the east part is better, so I decided to make some meetings with my friends in secret and plan how to escape.

Miren and Manex

8th of November, 1982
East Berlin

I am a teacher of East Berlin. I am 30 years old and my name is Intza. My favorite moment of the day is when I'm talking with my students.

Today, my students asked me how to escape to the other side of the wall. They used to talk about it at home but they like to listen my opinion.

I think that it's a good idea to escape, but they are too young. They think that in the other side, there is more freedom but tomorrow I'm going to talk with them and say that here they have a better education and healthcare.

I hope they will listen to me.

Elene and Xantal.
